Subject: RE: Enola Branch MOA

Troy, I have had many calls and questions about the MOA from the consulting parties. Most deal with the timing or the land exchange and the review of the documents to be produced to assure their quality.

I am not comfortable about having us sign a "stand alone" signature page with no other signatures on it. All other Agreements come to our office with signatures before we sign.

I will deal with this, this week and let you know about the draft. Susan

Subject: Enola Branch MOA

Good morning, I hope you both had a great weekend.

As you know, I have a small organic farm, so this spring is keeping me busy. I have an acre of asparagus that I've been cutting and taking to several vegetable stands, set up two hives of bees, in addition to all the other spring related chores! *grin*

I am also interested in learning where you stand with regard to reviewing and signing the MOA. We would like to conclude this process as quickly as possible and would like to know if there is anything we can do to assist you in the endeavor? On the note, Susan, could you please call or email me when you receive the Fed-Ex'd copy of the MOA and Notice today.

If you have any questions, please feel free to call me at home at 610.793.4301 or via email at [REDACTED] (I've had trouble accessing my STB email via the web as of late....).
